- ◆ **Jamie Stang, PhD, MPH, RD**, Assistant Professor, Division of Epidemiology and Community Education, School of Public Health, University of Minnesota, Minneapolis, MN

Goal:

This continuing education program focuses on the improvement of maternal and infant health through the delivery of risk-appropriate high-quality nutrition services. It is designed for dietitians, nutritionists, certified nurse midwives, registered nurses and nurse practitioners, physicians and public health professionals who serve pre-conceptual, pregnant, postpartum and breastfeeding women.

Objectives:

- ◆ Describe ways that appropriate nutrition services can improve pregnancy outcomes.
- ◆ Describe the effect of maternal eating behaviors on birth outcomes and infant health status and development.
- ◆ Identify characteristics of model programs and counseling approaches for maternal and infant nutritional health.

Accreditation:

The program has been submitted for approval to the American Dietetic Association for 9.5 continuing education hours.

Contact hours have been applied for through Wisconsin Nurses Association Continuing Education Approval Program Committee, an accredited approver by the American Nurses Credentialing Centers Commission on accreditation.

The program qualifies for 9.5 contact hours (0.95 CEUs) of professional continuing education. The Centers for Public Health Education and Outreach, University of Minnesota School of Public Health, maintains permanent records of all continuing education activities.
